- Meat tray size: 79 X 46 X 65cm
- Machine dimensions in crate: 88 X 46 X 85cm
- Machine weight in crate: 115Kg
- 1 year warranty
- The Jackaroo mincer is designed to grind meat and used by home, mobile butchers and small butcher shops.
- **Consider the following before choosing a machine**

Kilograms minced per hour is approximate because:-

The size plate makes a difference
The size of chunks / strips of meat you put down the throat
The temperature of the meat when you mince it
How quick the meat is dropped into the throat
The fat, sinews and grizzle content of the meat
Second grind will always be slower than first grind
