Brice™

The 330IKSA semi automatic manual slicer is a heavy duty powerhouse that takes the hard work out of volume slicing. An ideal slicer for caterers, medium/large kitchens and delicatessens.

Model

330IKSA

Semi-automatic Gear Driven Slicer

Model 330IKSA Semi-automatic Gear Driven Slicer

CE Approved

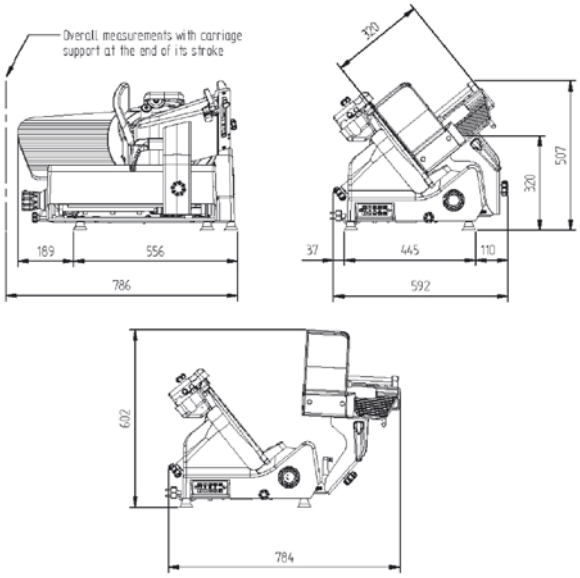

The Model 330IKSA gear-driven Semi-automatic gravity feed slicer has been designed for heavy duty applications.

Anodised aluminium and stainless steel construction make the 330IKSA rugged. A large receiving plate, three selectable stroke speeds and stroke lengths, precision slicing action, and a full suite of safety features make the 330IKSA one of the most functional and versatile semi-auto slicers on the market.

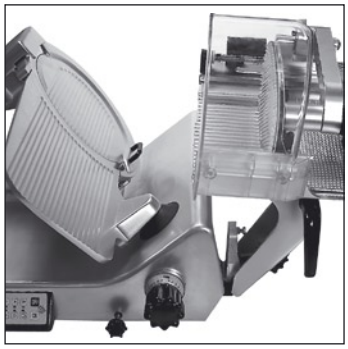

- Manufactured in stainless steel and anodised aluminium to resist the corrosive effects of salts and acids;
- Conforms to all Australian and European standards. CE Approved.
- Micrometric thickness control allows for cutting of slices from 0 to 24mm;
- Self-contained and built-in sharpening device with grinding and finishing stones;
- Two independent fan-cooled motors - blade and carriage;
- All bearings are self-lubricating and sealed-for-life;
- Safety cutout switches for centre plate and blade operation;
- Low-voltage control panel for added safety;
- Fully-guarded blade and meat tray.

SPECIFICATIONS

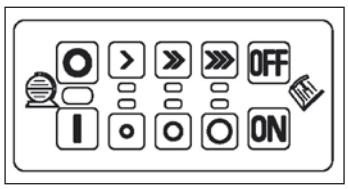

Overall Dimensions (mm)	745 x 592 x 507
Installation area (mm)	556 x 445
Working area (mm)	786 x 784 x 602
Blade (mm)	330
Motor	240V, 360W, 50Hz
Operating Temp. Range	Between 5°C and 40°C
Acoustic (dB)	Max. 70dB
Net Weight (kg)	56.5
Slice Capacity	
Stroke/min.	30/40/50
Max. Slice Thickness (mm)	24
Max Cutting Cap. (dia., mm)	240
Max xCutting Cap. (rect., mm)	210 x 290

S Semi-automatic slicer (selectable for auto or manual operation)
G Gear-driven blade and/or carriage
H Rated for heavy duty/high volume environments

Slicer "unfolds" for easy cleaning

Control panel controls all aspects of the slicer's operation.

Large receiving plate ideal for volume slicing.
