Product Name	Natural LDPE Plastic Bag for Food Grade
Product Description	LDPE Resealable Bag
Composition:	Virgin LDPE resin – Low density polyethylene (approx. 50%), Virgin LLDPE resin - Linear Low Density Polyethylene (app. 50%)
Raw Materials:	The LDPE and LLDPE will meet the requirements of AS2070-1999 section 4.1.1 (a) and US Food and Drug Administration (FDA) 21 Code of Federal Regulation (CFR) part 177.1520 (c)2.1 and (c) 3.1a
Colorants/Additives:	No colorants or additives are part of this product composition
Intended Use/ Directions for Use	Packaging material for holding general food products within temperature range of 0 degrees to ambient temperature only. This product is not intended for holding food during cooking or heating activities without the proper compliance testing. In determining acceptability of this product in your intended application, we recommend you consult the applicable regulations for complete details. Migration limits and other restrictions may apply. Migration should be measured by using the actual foodstuff in contact with the plastic packaging. Refer to relevant food contact regulations for migration testing requirements. The manufacturer/industrial packer of any food, direct or indirect food additive, or food contact substance or article, has the responsibility to ensure compliance with relevant food contact regulations, and to ensure that any food article packed is technically suitable for the intended use including conditions of use.
Ingredient Statement	All materials used to manufacture this product are 100% virgin purity.
Sensory Properties	Visual: Clear bag
Shelf Life	3 years
Sensitivities	No – for general use
Packaging	Bags are packed in cardboard carton with plastic liner
Storage	Store bags in original packaging in a cool dry place. Open cartons should be sealed and stored off the floor away from exposure heat, sunlight and pollutants.
Distribution	Finished orders are stretch wrapped on pallet and transported by clean, maintained vehicles direct to customer.
Labels:	Finished product carton is labelled with product description and size, batch number, quantity.
