Remarks

Dutch goat cheese is made from goat milk which is collected from Dutch dairy goat farms. The maturation and maintenance takes place in Dutch ripening rooms. This product is registered as a Protected Geographical Indication (PGI) and may therefore be marketed as Dutch Goat Cheese.

Due to the natural purity of cheese, the natural ripening and seasonal influences, variations in values can occur.

Product and production process are in accordance with Dutch, Russian and European legislation.

Keep regrigerated, after opening perishable.
