|---------------|------------------------------------|
| Company       | Johannes Giesser Messerfabrik GmbH |
| Street        | Johannes-Giesser-Straße 1          |
| City/Zip code | 71364 Winnenden                    |
| Phone         | 07195/1808-0                       |
| Email         | info@giesser.de                    |

### Technical Details

|                       |                   |
|-----------------------|-------------------|
| EAN/GTIN              | 4010303040692     |
| Country of origin     | Germany           |
| Region                | Baden-Württemberg |
| Customs tariff number | 82119200 08       |
| Length                | 370 mm            |
| Blade length          | 240 mm            |
| Weight                | 0.21 kg           |

### Technical drawing

- ➔ Blade made of high quality chrome molybdenum steel
- ➔ Polished
- ➔ Scalloped edge
- ➔ Soft shell, hard core for secure hold
- ➔ Easy on the wrists

### Material properties

scalloped edge

### Blade

#### Highly polished

Blade made from high grade chrome molybdenum steel, hardened in vacuum process to 56 - 57 Rockwell hardness grade.  
Highly polished surface for highest possible rust resistance and durability of the cutting edge. Honing by hand for perfect sharpness.

### Cut

#### Scalloped edge

The scalloped edge ensures better incision. The blade slides through each cut with less friction. This enables fatigue-free work and protects the cutting edge.

### Handle

#### PrimeLine 12

Soft handle material enables fatigue-free work while protecting the joints and thus contributes to enhanced work productivity.  
The well-crafted handle guard safely protects the hand from slipping into the blade.

#### Knives with a plastic handle

The plastic handle is suitable for contact with food and complies with the requirements of the following legal regulations (each including all amendments and in the current version at the time of making this declaration):

Regulation (EC) No. 1935/2004 on materials and objects (including active and intelligent food contact materials and objects), intended for coming into contact with food and repealing Directives 80/590/EEG and 89/109/EEG – in their currently valid version.

Regulation (EU) No. 10/2011 dated 14.01.2011 on materials and objects made from plastic intended for coming into contact with food.

#### All handles except wood

The knives are dishwasher proof. However, we recommend manual cleaning to protect the cutting edge.
