CHLORSAN

CHLORINATED POWDERED DETERGENT/SANITISER

CHLORSAN is a broad-spectrum cleaner and sanitiser, composed of alkaline sodium phosphate and chlorine in powder form. This makes **CHLORSAN** an exceptional all-purpose cleaner/sanitiser. **CHLORSAN** is mildly abrasive and a highly effective bactericide and fungicide. **CHLORSAN** is particularly effective in bleaching of stubborn soils.

FEATURES & BENEFITS

- **P**rovides exceptionally fast penetration and free rinsing properties making cleaning easier and safer in food and allied industries.
- **H**ighly effective bactericide and fungicide.
- **F**ree flowing powder which is rapidly soluble in hot or cold water.
- **E**ffective in hard or soft water.
- **S**afe to use on most surfaces except aluminium or galvanised surfaces.

USES

- De-staining cutlery and kitchen knives
- De-staining kitchen plates and bowls
- De-staining coffee and tea cups
- Cutting board sanitiser
- Kitchen hard surface sanitising and cleaning.

DIRECTIONS & DILUTIONS

For de-staining and sanitising of cutlery, dishes and glassware soak in a solution as follows:

General cleaning	25 grams per litre of water

WARNING

Avoid skin and eye contact

FIRST AID

If poisoning occurs contact a doctor of poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give milk or water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.
